

7 Steps to Restoration:

After any major wind, hail, snow or rain storm your roof can be majorly impacted. It is imperative to contact a storm damage professional to schedule a roof inspection. An Equity Restoration storm damage professional will perform a thorough inspection of your roofing system to determine if it has sustained storm damage. Our professionals will then walk you through the steps from restoration to initiating the claims process to the completion of the construction.

Step 1: Contact Equity Restoration at 888-204-9518 to set up a free roof inspection.

Step 2: If damage is found, our storm damage professionals will assist you with contacting your homeowners' insurance company to open a claim and to schedule an inspection.

Step 3: Insurance company adjuster meets with an Equity Restoration representative to review the damage and negotiate a thorough and fair settlement for repairs.

Step 4: Homeowner will review insurance settlement with Equity Restoration's project manager and select new materials for roofing and all other covered items on contract.

Step 5: Equity Restoration's production manager will review insurance settlement and discuss any missed items with the insurance company and contact homeowner to schedule the installation.

Step 6: Installation of new roof and all items covered on contract.

Step 7: Equity Restoration will invoice insurance company for balance of the work performed and completed. The payment will be sent to the homeowner first. Homeowner will then send the payment Equity Restoration; warranties are issued after final payments are received.
